Background Information on the Fund

The Fund seeks to provide long-term capital appreciation.

The Fund invests primarily in equities the advisor considers to be highly innovative companies or “knowledge leaders.” The portfolio will include a diversified mix of mid- and large-cap companies from the developed world including North America, Europe and Asia.

The Fund's advisor considers knowledge leaders to be companies that have demonstrated histories of successfully employing their research and development and have built competitive advantages using

their own firm-specific resources such as proprietary knowledge, intellectual property or a unique distribution mechanism. Based on academic research, the advisor believes the market is generally inefficient at valuing such high growth companies because traditional financial data overlooks hidden value in such companies' assets.

Using a proprietary methodology based on academic research, the advisor evaluates all Of the equity securities in an investment universe comprised of companies in the top 85% of the market capitalization of the 22 traditional developed countries (excluding Hong Kong) with a stock price greater than \$1, eliminating those companies with the lowest 10% trading liquidity (shares traded multiplied by share price). The advisor's methodology is applied to create an intangible-adjusted financial history for each remaining company. The methodology does this by making adjustments to each company's reported financial data since 1980 (or since the company's inception, if later) that cause intangible investments to be treated as identical to tangible investments. For this purpose, intangible assets include research and development, advertising, brand development, and employee training expenses. The methodology then applies the advisor's "knowledge leaders" screen, a proprietary, quantitative process used to measure a company's intangible-adjusted financial history for knowledge and innovation intensity, financial strength, and profitability. Companies are graded on a "pass/ fail" basis and those companies that pass each level of the screen are identified as knowledge leaders. The Fund's advisor then constructs an equity portfolio from the group of knowledge leader stocks that in the advisor's opinion has the greatest liquidity characteristics. The Fund will not hold the entire group of knowledge leader securities.

Under normal circumstances, at least 80% of the Fund's assets will be invested in securities the Fund's advisor identifies as knowledge leaders at the time of investment, with not more than 25% in any one industry. Under normal market conditions, the Fund will invest at least 40% of its net assets in securities of companies located outside the United States. A company will be considered to be located outside the United States if it is domiciled in and tied economically to one or more non-U.S. countries and may include stocks of companies that trade in the form of depositary receipts. From time to time, the Fund may have a significant portion of its assets invested in a specific sector or geographical area.

The Fund will invest primarily in securities issued by companies with market capitalizations over \$500 million and may also invest in other investment companies, ETFs, cash, cash equivalents and money market instruments.

When the Advisor believes that current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objective, the Fund may invest some or all of its assets in cash or cash equivalents. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective.

Individual shares of the Fund may only be bought and sold in the secondary market through a broker-dealer at market price. Because Fund shares trade at market prices rather than at net asset value, Fund shares may trade at a price greater than net asset value (premium) or less than net asset value. When buying or selling shares in the secondary market, an investor may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) (the "bid-ask spread").

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE

APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
