Background Information on the Fund

The Fund seeks to achieve long-term capital appreciation with capital preservation as a secondary objective.

The Fund primarily invests in other exchange traded funds (“ETFs”) that each invest primarily in domestic and foreign (including emerging markets) (i) equity securities of any market capitalization, (ii) fixed-income securities of any credit quality, or (iii) alternative assets. In addition, the Fund may invest in commodity futures through a wholly-owned and controlled Cayman subsidiary (the “Tactical Subsidiary”). The Fund defines equity securities to be exchange traded common and preferred stocks;

and defines fixed-income securities to be bonds, notes, debentures or similar instruments; and defines alternative assets to be investments that are historically uncorrelated to either equity or fixed income investments, which are commodity futures, commodities, exchange traded master limited partnerships ("MLPs") and real estate-related securities, which include foreign and domestic exchange traded real estate investment trusts ("REITs"), exchange traded real estate operating companies ("REOCs") or similar instruments. The Fund's fixed income securities may be rated below investment grade (rated BB+ or lower by Standard & Poor's Ratings Services ("S&P") or comparably rated by another nationally recognized statistical rating organization ("NRSRO")), also known as "high-yield" or "junk" bonds, and in unrated debt securities determined by the Fund's advisor to be of comparable quality. The Fund is a "fund of funds," which means that it primarily invests in ETFs; however, when appropriate, the advisor may elect to invest directly in the types of securities described above (other than commodities). The Fund may also invest in other investment companies (including affiliated funds).

The Fund's advisor, Arrow Investment Advisors, LLC (the "Advisor") allocates the Fund's portfolio using research from Dorsey Wright & Associates ("DWA"), which comes from the DWA Global Macro investment model (the "DWA Global Macro model"), as well as the Advisor's proprietary methodology. The DWA Global Macro model is based on a technical analysis of historical price and return forecasts. Technical analysis is the method of evaluating securities by analyzing statistics generated by market activity, such as past prices and trading volume, in an effort to determine probable future prices. The Advisor buys securities and derivatives that it believes will produce returns that are highly correlated to the returns of the components of the DWA Global Macro model. The Advisor sells securities and derivatives to purchase other securities and derivatives that it believes will have higher returns or more closely correlate to the returns of the components of the DWA Global Macro model. The Fund invests in securities without restriction as to capitalization, credit quality or country.

Under normal market conditions, the Fund will invest:

- From 0% to 100% of its assets in ETFs that invest in equity securities;
- From 0% to 100% of its assets in ETFs that invest in fixed-income securities; and
- From 0% up to 90% of its assets in ETFs that invest in alternative assets.

The Fund may invest up to 25% of its total assets in the Tactical Subsidiary. The Tactical Subsidiary will invest primarily in commodity futures, as well as fixed-income securities and cash equivalents, which are intended to serve as margin or collateral for the Tactical Subsidiary's investments in commodity futures. When viewed on a consolidated basis, the Tactical Subsidiary is subject to the same investment restrictions as the Fund. The Fund will consolidate the Tactical Subsidiary for purposes of financial statements, leverage and concentration. The Advisor is solely responsible for managing the assets of the Tactical Subsidiary.

The Fund will invest in ETFs within specific asset classes when the research provided by DWA indicates a high probability that the applicable asset classes and ETFs are likely to outperform the applicable universe. The Fund will sell interests or reduce investment exposure among an asset class or ETF when the research provided by DWA indicates that such asset class or ETF is likely to underperform the applicable universe. The Fund may invest more heavily in fixed-income ETFs, cash positions and similar securities when the research provided by DWA indicates these assets should significantly outperform the equity and/or alternative asset classes.

In general, the Fund's investments in equity securities are intended to achieve the capital appreciation component of the Fund's investment objectives. At times, the Fund may invest in fixed-income securities

in order to achieve the capital preservation component of the Fund's investment objectives. The Fund's investments in alternative assets are intended to enable the portfolio to be less reliant on fixed-income investments for reducing volatility and equities for increasing returns. The Advisor may engage in frequent buying and selling of portfolio securities to achieve the Fund's investment objectives. The Fund will not invest in options or swaps.

The Fund will issue and redeem Shares at NAV only in large blocks of 100,000 Shares (each block of Shares is called a "Creation Unit"). Creation Units are issued and redeemed for cash and/or in-kind for securities. Individual Shares may only be purchased and sold in secondary market transactions through brokers. Except when aggregated in Creation Units, the Shares are not redeemable securities of the Fund.

Trading Halts

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the

Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase;
or

- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
