**Issuer/Trust:** FRANKLIN TEMPLETON ETF TRUST

**Issuer Website:** <https://www.franklintempleton.com/investor/investments-and-solutions/investment-options/etfs/>

**Primary Listing Exchange:** NYSE Arca

The purpose of this Product Circular is to outline various rules and policies that will be applicable to trading in this new product pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the “Issuer Disclosure Materials.”

**Background Information on the Fund**

Under normal market conditions, the Fund invests at least 80% of its assets in the component securities of the FTSE Japan Capped Hedged Index and in depositary receipts representing such securities, including indirectly through the Franklin FTSE Japan ETF (Underlying Fund). The FTSE Japan Capped Hedged Index is a free float-adjusted market capitalization weighted index maintained and calculated by FTSE Russell with a capping methodology applied quarterly to issuer weights so that no single issuer of a component exceeds 25% of the FTSE Japan Capped Hedged Index weight, and all issuers with weights above 5% do not cumulatively exceed 50% of the FTSE Japan Capped Hedged Index’s weight. The FTSE Japan Capped Hedged Index is based on the FTSE Japan Hedged to USD Index and is designed to

measure the performance of Japanese large- and mid-capitalization stocks. FTSE Russell determines eligible securities for the FTSE Japan Capped Hedged to USD Index based on measures such as the company's place of incorporation, listing country, investor protection regulations present in the country of incorporation, tax domicile, location of headquarters/factors of production and currency of denomination. The FTSE Japan Capped Hedged Index incorporates a hedge against the currency risk of the securities included in the FTSE Japan Capped Hedged Index against the U.S. dollar. As of May 29, 2020, the FTSE Japan Capped Hedged Index was comprised of 510 securities with capitalizations ranging from \$810 million to \$173.44 billion.

The Fund, using a "passive" or indexing investment approach, seeks investment results that closely correspond, before fees and expenses, to the performance of the FTSE Japan Capped Hedged Index. The investment manager seeks to achieve, over time, a correlation between the Fund's performance, before fees and expenses, and that of the FTSE Japan Capped Hedged Index of 0.95 or better. A figure of 1.00 would indicate perfect correlation. The Fund may use either a replication strategy or representative sampling strategy. Under a replication strategy, the Fund will replicate the component securities of the FTSE Japan Capped Hedged Index as closely as possible (i.e., invest in all of the component securities in their respective weightings in the FTSE Japan Capped Hedged Index). However, under various circumstances, it may not be possible or practicable to replicate the FTSE Japan Capped Hedged Index. In these circumstances, the Fund may use a "representative sampling" strategy whereby the Fund would invest in what it believes to be a representative sample of the component securities of the FTSE Japan Capped Hedged Index, but may not track the FTSE Japan Capped Hedged Index with the same degree of accuracy as would an investment vehicle replicating the entire FTSE Japan Capped Hedged Index. Under the representative sampling technique, the investment manager will select securities that collectively have an investment profile similar to that of the FTSE Japan Capped Hedged Index, including securities that resemble those included in the FTSE Japan Capped Hedged Index in terms of risk factors, performance attributes and other characteristics, such as market capitalization and industry weightings.

The FTSE Japan Capped Hedged Index incorporates a hedge against fluctuations of the Japanese yen by reflecting the impact of rolling monthly currency forward contracts on the Japanese yen (the "hedge impact"). The return of the FTSE Japan Capped Hedged Index is calculated as the sum of the return of the corresponding unhedged index denominated in U.S. dollars plus the hedge impact. The FTSE Japan Capped Hedged Index is calculated as if it sells forward the total value of the non-U.S. dollar denominated securities included in the FTSE Japan Capped Hedged Index at a one-month forward rate to effectively create a hedge against fluctuations in the relative value of the Japanese yen in relation to the U.S. dollar. The hedge is reset on a monthly basis by simulating the setting up of a similar transaction in which the notional amount of the forwards sold represents the new month-end value of the non-U.S. dollar denominated securities included in the FTSE Japan Capped Hedged Index. No adjustment to the hedge is made during the month to account for changes in the FTSE Japan Capped Hedged Index due to price movement of securities, corporate events, additions, deletions or any other changes (i.e., the amount hedged is kept constant over the whole month). The FTSE Japan Capped Hedged Index is designed to have higher returns than an equivalent unhedged index when the Japanese yen is weakening relative to the U.S. dollar. Conversely, the FTSE Japan Capped Hedged Index will have lower returns than an equivalent unhedged index when the Japanese yen is rising relative to the U.S. dollar.

The Fund intends to enter into monthly foreign currency forward contracts and/or currency futures contracts designed to offset the Fund's exposure to the Japanese yen, in order to seek to replicate the hedge impact incorporated in the calculation of the FTSE Japan Capped Hedged Index. The Fund's exposure to foreign currency forward contracts and currency futures contracts is based on the aggregate

exposure of the Fund to the Japanese yen.

The Fund will concentrate its investments (i.e., hold 25% or more of its net assets) in a particular industry or group of industries to approximately the same extent that the FTSE Japan Capped Hedged Index is concentrated.

Prior to trading in the secondary market, shares of the Fund are “created” at NAV by market makers, large investors and institutions only in block-size Creation Units of 50,000 shares with respect to the Franklin FTSE Australia ETF, Franklin FTSE Canada ETF, Franklin FTSE France ETF, Franklin FTSE Germany ETF, Franklin FTSE India ETF, Franklin FTSE Italy ETF, Franklin FTSE Mexico ETF, Franklin FTSE Russia ETF, Franklin FTSE Saudi Arabia ETF, Franklin FTSE South Africa ETF and Franklin FTSE United Kingdom ETF; 200,000 shares with respect to the Franklin FTSE China ETF, Franklin FTSE Taiwan ETF, Franklin FTSE Europe ETF, Franklin FTSE Europe Hedged ETF and Franklin FTSE Japan Hedged ETF; 400,000 shares with respect to the Franklin FTSE Asia ex Japan ETF; 100,000 shares with respect to the Franklin FTSE Brazil ETF, Franklin FTSE Latin America ETF, Franklin FTSE South Korea ETF and Franklin FTSE Switzerland ETF; 150,000 shares with respect to the Franklin FTSE Hong Kong ETF; and 600,000 shares with respect to the Franklin FTSE Japan ETF; or multiples thereof. All orders to purchase Creation Units must be placed by or through an “Authorized Participant” that has entered into an authorized participant agreement (AP Agreement) with Franklin Templeton Distributors, Inc. (Distributors), an affiliate of Advisory Services. Only an Authorized Participant may create or redeem Creation Units directly with the Fund.

Authorized Participants may create or redeem Creation Units directly with the Fund. A creation transaction, which is subject to acceptance by Distributors or its agents, generally takes place when an Authorized Participant deposits into the Fund a designated portfolio of securities and/or cash (which may include cash in lieu of certain securities) in exchange for a specified number of Creation Units. With respect to the Franklin FTSE Brazil ETF, Franklin FTSE India ETF, Franklin FTSE Saudi Arabia ETF, Franklin FTSE South Korea ETF and Franklin FTSE Taiwan ETF, these deposits are generally in cash. With respect to Franklin FTSE China ETF, Franklin FTSE Latin America ETF and Franklin FTSE Asia ex Japan ETF, these deposits are generally partially in cash.

Similarly, shares can be redeemed only in Creation Units, generally for a designated portfolio of securities and/or cash (which may include cash in lieu of certain securities). With respect to the Franklin FTSE Brazil ETF, Franklin FTSE India ETF, Franklin FTSE Saudi Arabia ETF, Franklin FTSE South Korea ETF and Franklin FTSE Taiwan ETF, redemptions are generally in cash, although each Fund reserves the right to meet redemptions on an in-kind basis. With respect to Franklin FTSE China ETF, Franklin FTSE Latin America ETF and Franklin FTSE Asia ex Japan ETF, redemptions are generally paid partially in cash. Except when aggregated in Creation Units, shares are not redeemable by the Fund.

The prices at which creations and redemptions occur are based on the next calculation of NAV after a creation or redemption order is received in an acceptable form under the AP Agreement. The portfolio of securities required for purchase of a Creation Unit is generally the same as the portfolio of securities the Fund will deliver upon redemption of Fund shares, except under certain circumstances. The designated portfolio of securities in connection with a purchase or redemption of a Creation Unit generally will correspond pro rata, except under certain circumstances, to the securities held by the Fund. As a result of any system failure or other interruption, creation or redemption orders either may not be executed according to the Fund’s instructions or may not be executed at all, or the Fund may not be able to place or change such orders.

Creations and redemptions must be made through a firm that is either a broker dealer or other participant in the Continuous Net Settlement System of the National Securities Clearing Corporation or a DTC participant and, in either case, has executed an AP Agreement with Distributors. Information about the procedures regarding creations and redemptions of Creation Units (including the cut-off times for receipt of creation and redemption orders) is included in the Fund's SAI.

Because new shares may be created and issued on an ongoing basis, at any point during the life of the Fund a "distribution," as such term is used in the 1933 Act, may be occurring. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner that could render them statutory underwriters and subject to the prospectus delivery and liability provisions of the 1933 Act. Any determination of whether one is an underwriter must take into account all the relevant facts and circumstances of each particular case.

Broker-dealers should also note that dealers who are not "underwriters" but are participating in a distribution (as contrasted to ordinary secondary transactions), and thus dealing with shares that are part of an "unsold allotment" within the meaning of Section 4(a)(3)(C) of the 1933 Act, would be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the 1933 Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the 1933 Act is available only with respect to transactions on a national securities exchange.

### **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

### **Exchange Rules Applicable to Trading in the Shares**

Trading in the Shares on MIAX PEARL is subject to MIAX PEARL trading rules.

### **Trading Hours**

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on MIAX PEARL between 9:30 a.m. and 4:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

### **Dissemination of Data**

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Franklin FTSE Japan Hedged ETF	NYSE Arca	FLJH	FLJH.IV	FLJH.NV

### **Delivery of a Prospectus**

MIAX PEARL Equity Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The prospectus for the Fund does not contain all of the information set forth in the Fund's Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, MIAX PEARL Rules requires that MIAX PEARL Equity Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, MIAX PEARL Equity Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an MIAX PEARL Equity Member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Exchange Traded Products] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Exchange Traded Products]."

A MIAX PEARL Equity Member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MIAX PEARL Equity Member under this rule.

Upon request of a customer, MIAX PEARL Members also shall provide a copy of the Prospectus.

### **Suitability**

Trading in the securities on the Exchange will be subject to the provisions of MIAX PEARL Rule 2107 and other applicable suitability rules. Equity Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

### **Trading Halts**

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **Rule 10b-17 (Untimely Announcement of Record Dates)**

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

#### **Section 11(d)(1); Rule 11d1-2 (Customer Margin)**

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

#### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

**SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)**

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

This Product Circular is not a statutory prospectus. MIAX PEARL Equity Members should consult the prospectus for a security and the security's website for relevant information.
