Background Information on the Fund

The Fund seeks to achieve its investment objective by selecting a focused portfolio of high-yield debt securities, which include senior and subordinated corporate debt obligations (such as loans, bonds, debentures, notes and commercial paper). High-yield debt securities are rated below investment grade (that is, securities rated below the top four rating categories of a ratings organization or, if unrated, determined to be of comparable credit quality by the Fund’s sub-advisers) and are commonly referred to as “high-yield” or “junk” bonds. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in high-yield debt securities. The Fund may invest in debt securities issued by foreign issuers, including issuers in emerging markets. The Fund does not

have any portfolio maturity limitation and may invest its assets in instruments with short-term, medium-term or long-term maturities. In seeking to achieve its investment objective, the Fund may invest in closed-end funds. The Fund also may invest in equity securities that a sub-adviser believes will yield high dividends or are otherwise consistent with the Fund's investment objective and in repurchase agreements. The Fund's strategy may frequently involve buying and selling securities, which may lead to relatively high portfolio turnover.

The Fund employs a "multi-manager" approach whereby portions of the Fund's assets are allocated among sub-advisers. Exchange Traded Concepts, LLC ("ETC" or the "Adviser") is responsible for the management of the Fund and supervision of the Fund's sub-advisers, MacKay Shields LLC ("MacKay Shields") and WhiteStar Asset Management LLC ("WhiteStar"). Each sub-adviser manages its allocated portion of the Fund's assets to correspond with its distinct investment style and strategy, as described below, in a manner consistent with the Fund's investment objective, strategies, and restrictions. ETC may allocate assets from or towards each sub-adviser from time to time and may reallocate assets between the sub-advisers. MacKay Shields and WhiteStar act independently of each other and each uses its own methodology for selecting investments.

MacKay Shields. In selecting securities for the Fund's portfolio, MacKay Shields performs an independent investment analysis of each issuer to determine its creditworthiness. MacKay Shields views credit as either of the highest quality or "D" (i.e., it either pays or does not). MacKay Shields takes a deep value contrarian approach to the credit markets, focusing on absolute value. MacKay Shields largely focuses on the secondary market, often investing in assets at a discount to par (\$100), allowing for a potential opportunity to generate capital gains in addition to current yield. MacKay Shields believes that structural and technical inefficiencies exist in the secondary credit markets, which create attractive investment opportunities, and that, by holding a diversified but limited number of securities, the portfolio will be constructed of securities that provide exposure to industries believed to offer the most value to the Fund. Companies in the energy sector have significant representation in the high-yield debt securities market.

WhiteStar. WhiteStar employs both "top-down" and "bottom-up" analyses to select investments for the Fund. WhiteStar's top-down analysis involves a macro analysis of relative asset valuations, long-term industry trends, business cycles, interest rate expectations, credit fundamentals, and technical factors to target specific industry sectors and asset classes in which to invest. WhiteStar's bottom-up analysis includes a rigorous analysis of the credit fundamentals and capital structure of each potential investment and a determination of relative value compared to alternative investments. Potential investments will be analyzed through a thorough review of the fundamentals of the economy in general and then the particular industry and the strengths and weaknesses of each individual credit. Under this approach, the credit performance of each asset will typically be subjected to stress tests to maximize the selection of investments with favorable risk-adjusted returns.

The Fund will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least 50,000 shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of a portfolio of securities closely approximating the holdings of the Fund and/or a specified amount of cash.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

A MIAX PEARL Equity Member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MIAX PEARL Equity Member under this rule.

Upon request of a customer, MIAX PEARL Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of MIAX PEARL Rule 2107 and other applicable suitability rules. Equity Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE

APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
