### **Background Information on the Fund**

The Fund seeks to track the investment results of the NYSE® FactSet® Global Autonomous Driving and Electric Vehicle Index™ (the “Underlying Index”), which measures the performance of equity securities issued by companies that produce autonomous driving vehicles, electric vehicles, batteries for electric vehicles, or technologies related to such products. The determination of inclusion in the Underlying Index is made by ICE Data Indices, LLC, or its affiliates (the “Index Provider” or “IDI”).

The Underlying Index is composed of equity securities of companies listed in one of 43 developed or emerging market countries that derive a certain specified percentage of their revenue from selected

autonomous or electric vehicle-related industries, as defined by IDI. In addition to categorizing companies by the amount of revenue generated in these industries, the Underlying Index also includes companies that have made public filings or have obtained certification by government entities related to their autonomous driving research and development programs. Companies in these autonomous or electric vehicle related industries include (i) autonomous and electric vehicle manufacturers, (ii) autonomous driving technology companies, (iii) electric vehicle battery producers, (iv) electric vehicle battery materials producers, and (v) electric vehicle charging components producers.

Based on the Index Provider's methodology and as determined by the Index Provider, companies included in the Underlying Index are comprised of:

(1)(a) companies that generate 50% or more of their revenue from the manufacturing of autonomous or electric vehicles (pure player autonomous or electric vehicle manufacturers) and (b) motor vehicle manufacturers that participate in the manufacturing or development of autonomous or electric vehicles, either because they made public filings or have obtained certification by government entities related to their autonomous driving research and development programs (ancillary autonomous driving vehicle manufacturers), or they are customers to external electric battery suppliers and/or producer of electric batteries themselves (ancillary player electric vehicle manufacturers);

(2) companies that in the aggregate generate 50% or more of their revenue from 42 selected automotive value chain industries and are a supplier to at least one autonomous driving company (autonomous driving technologies companies);

(3) companies that generate 10% or more of their revenue from electric battery manufacturing and are a supplier to at least one autonomous and electric vehicle manufacturer (electric vehicle battery producers);

(4) companies that generate 10% or more of their revenue from two lithium exposed chemical industries (electric vehicle battery materials producers); and

(5) companies that in the aggregate generate 50% or more of their revenue from 42 selected automotive value chain industries and are a supplier to at least one electric vehicle manufacturer (electric vehicle charging and components producers).

The component securities of the Underlying Index are weighted by float adjusted market capitalization with individual securities capped at 4%.

The Underlying Index will be reviewed and reconstituted annually in December each year. Constituent weights of the Underlying Index are rebalanced semiannually. The Underlying Index may include large-, mid- or small capitalization companies.

As of July 31, 2019, a significant portion of the Underlying Index is represented by securities of companies in the automotive, industrials, semiconductor and technology industries or sectors. The components of the Underlying Index are likely to change over time. The Underlying Index includes technology companies that are involved in or exposed to, self-driving or electric vehicle-related industries. These companies may not be exclusively or substantially exposed to the information technology industry and may be classified in the communication services, consumer discretionary, industrials or materials industries or sectors.

The Fund generally will invest at least 90% of its assets in the component securities of the Underlying Index and in investments that have economic characteristics that are substantially identical to the component securities of the Underlying Index (i.e., depositary receipts representing securities of the Underlying Index) and may invest up to 10% of its assets in certain futures, options and swap contracts, cash and cash equivalents, including shares of money market funds advised by BFA or its affiliates, as well as in securities not included in the Underlying Index, but which BFA believes will help the Fund track the Underlying Index. The Fund seeks to track the investment results of the Underlying Index before fees and expenses of the Fund.

The Underlying Index is sponsored by IDI, which is independent of the Fund and BFA. The Index Provider determines the composition and relative weightings of the securities in the Underlying Index and publishes information regarding the market value of the Underlying Index.

### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. ### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the

Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **Rule 10b-17 (Untimely Announcement of Record Dates)**

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

#### **Section 11(d)(1); Rule 11d1-2 (Customer Margin)**

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

#### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase;  
or

- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

**SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)**

In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
