**Background Information on the Fund**

In seeking to track the performance of the Bloomberg Barclays Municipal Yield Index (the “Index”), the Fund employs a sampling strategy, which means that the Fund is not required to purchase all of the securities represented in the Index. Instead, the Fund may purchase a subset of the securities in the Index in an effort to hold a portfolio of securities with generally the same risk and return characteristics of the Index. The quantity of holdings in the Fund will be based on a number of factors, including asset size of the Fund. Based on its analysis of these factors, Nuveen Asset Management, LLC (“Nuveen Asset Management” or the “Sub-Adviser”), the investment sub-adviser to the Fund, either may invest the Fund’s assets in a subset of securities in the Index or may invest the Fund’s assets in substantially all of

the securities represented in the Index in approximately the same proportions as the Index, as determined by the Sub-Adviser to be in the best interest of the Fund in pursuing its objective.

Under normal market conditions, the Fund generally invests substantially all, but at least 80%, of its total assets in the securities comprising the Index and in securities that the Sub-Adviser determines have economic characteristics that are substantially identical to the economic characteristics of the securities that comprise the Index. Additionally, the Fund intends to invest, under normal circumstances, at least 80% of its net assets, plus the amount of borrowings for investment purposes, in investments the income of which is exempt from Federal income tax. In addition, in seeking to investment purposes, in investments the income of which is exempt from Federal income tax. In addition, in seeking to 33 track the Index, the Fund may invest in debt securities that are not included in the Index, cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by SSGA Funds Management, Inc. (“SSGA FM” or the “Adviser”), the investment adviser to the Fund). In seeking to track the Index, the Fund’s assets will generally be concentrated in an industry or group of industries to the extent that the Index concentrates in a particular industry or group of industries.

The Index is market value-weighted and designed to measure the performance of U.S. dollar-denominated high-yield municipal bonds issued by U.S. states, the District of Columbia, U.S. territories and local governments or agencies. The Index includes fully tax-exempt investment grade, non-investment grade (“junk”) and non-rated bonds, but does not include defaulted securities. Bonds included in the Index may include private activity bonds, which are typically issued by or on behalf of local or state governments for the purpose of financing the project of a private user. The Index consists of bonds that are constituents of the Bloomberg Barclays Municipal High Yield Bond Index and Bloomberg Barclays U.S. Municipal Bond Index as follows: (i) 70% of the Index is represented by the constituents of the Bloomberg Barclays Municipal High Yield Bond Index, the constituents of which are non-rated or rated no higher than Ba1 by Moody’s Investors Service, Inc. (“Moody’s”) or BB+ by Standard & Poor’s (“S&P”) or Fitch Inc. (“Fitch”); (ii) 20% of the Index is represented by the constituents of the Bloomberg Barclays U.S. Municipal Bond Index that are rated Baa3, Baa2, or Baa1 by Moody’s or BBB-, BBB, or BBB+ by S&P or Fitch; and (iii) 10% of the Index is represented by the constituents of the Bloomberg Barclays U.S. Municipal Bond Index that are rated A3, A2, or A1 by Moody’s or A-, A, or A+ by S&P or Fitch. Constituents of the Bloomberg Barclays Municipal High Yield Bond Index must have a total amount outstanding of \$3 million or more and be issued as part of a transaction of at least \$20 million. Constituents of the Bloomberg Barclays U.S. Municipal Bond Index must have a total amount outstanding of \$7 million or more and be issued as part of a transaction of at least \$75 million. Only fixed-rate coupon bonds (including zero coupon bonds) with a remaining maturity of at least one year and a dated date of January 1, 1991 or later are eligible for inclusion in the Index. Securities included in the Index may include when-issued securities, as well as securities that are subject to restrictions on resale under the U.S. federal securities laws (“restricted securities”). The securities in the Index rebalance on the last business day of each month. As of July 31, 2020, there were 20,024 securities in the Index.

The Index is sponsored by Bloomberg Index Services Limited (the “Index Provider”), which is not affiliated with the Fund, the Adviser or the Sub-Adviser. The Index Provider determines the composition of the Index, relative weightings of the securities in the Index and publishes information regarding the market value of the Index.

The Fund will issue (or redeem) Fund Shares to certain institutional investors (typically market makers or

other broker-dealers) only in large blocks of Fund Shares known as “Creation Units.” Creation Unit transactions are conducted in exchange for the deposit or delivery of a designated portfolio of in-kind securities and/or cash. Creation Unit transactions may be conducted in exchange for cash only, which may cause the Fund to recognize capital gains and to pay out higher annual capital gain distributions to shareholders than if such transactions had been conducted in-kind.

The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;

In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:
