Background Information on the Fund

The Dividend Fund seeks investment results that, before fees and expenses, correspond to the performance of the Solactive Dividend Index over each calendar year so as to provide Shareholders with returns designed to replicate the dividends on constituent companies of the S&P 500, without exposure to the underlying securities. The value of the Solactive Dividend Index and, therefore, the value of the Dividend Fund’s Shares, will be affected by the ordinary cash dividends that have been paid to date and general expectations in the market regarding the future levels of such dividends.

The Dividend Fund intends primarily to invest its assets in the component instruments of the Solactive

Dividend Index, as well as in cash and/or cash equivalents. The component instruments of the Solactive Dividend Index consist of U.S. Treasury Securities (“Treasury Securities”) and long positions in annual futures contracts listed on the Chicago Mercantile Exchange (“CME”) that provide exposure to dividends paid on the S&P 500 constituent companies (“S&P 500 Dividend Futures Contracts”) pro rata for each year of the life of the Dividend Fund. As a result, in addition to the Treasury Securities, cash and/or cash equivalents, the Dividend Fund is initially expected to hold each of the annual S&P 500 Dividend Futures Contracts that are traded and expire during its 10-year term. Each year thereafter, until December 2027 when the Dividend Fund will terminate, the Dividend Fund will hold one less S&P 500 Dividend Futures Contract due to expiry of the prior year’s contract.

The Dividend Fund’s exposure to dividend payments made by S&P 500 constituent companies will be based exclusively on its investments in S&P 500 Dividend Futures Contracts. The value of the S&P 500 Dividend Futures Contracts, on which the value of the Dividend Fund will be based, will tend to increase if the actual dividends paid or expected to be paid by S&P 500 constituent companies in the periods tracked by the S&P 500 Dividend Futures Contracts increase. The value of the S&P 500 Dividend Futures Contracts will tend to decrease if the actual dividends paid or expected to be paid by S&P 500 constituent companies decrease in the periods tracked by the applicable S&P 500 Dividend Futures Contracts.

The Dividend Fund intends to make cash distributions to its Shareholders on a monthly basis that generally track, over a one-year period, the actual dividends paid by S&P 500 constituent companies, as reflected in the change in the Dividend Points Index. There is expected to be a timing difference between the Dividend Fund’s distributions and the level of the Solactive Dividend Index. While the Dividend Fund will pay distributions to Shareholders monthly, the value of the annual S&P 500 Dividend Futures Contracts will not decline to reflect the actual payment of dividends until the next annual expiration date of such contracts. As a result of the fact that the Solactive Dividend Index tracks the S&P 500 Dividend Futures Contracts, the values of which do not decline to reflect the payment of accrued dividends paid by S&P 500 constituent companies until the maturity of the contract, whereas the Dividend Fund pays out accrued dividends monthly, the market price and the NAV of the Dividend Fund is expected to be lower than the level of the Solactive Dividend Index during the months between the periods between the Dividend Fund’s initial cash distribution during any year and the expiry of the current S&P 500 Dividend Futures Contract at year-end. The Funds will use cash on hand and short-term borrowings to make such payments. The Dividend Points Index adjusts daily to reflect dividends that have already been paid up to that date. The payment of such dividends will also be reflected in the price of the S&P 500 Dividend Futures Contracts, and, therefore, the performance of the Solactive Dividend Index on a daily basis, but such S&P 500 Dividend Futures Contracts will not settle until the next futures expiry day.

In connection with the continuous offering of Shares by the Funds, the Sponsor will accept, or cause the Trustee or another designee selected by the Sponsor to accept, orders placed by authorized participants of the Trust (“Authorized Participants”) for the creation or redemption of one or more blocks of 50,000 Shares (each, a “Basket”). Generally, the Trust’s creation and redemption of Baskets are expected to be executed through exchange for related position (“EFRP”) transactions, which are designed to achieve an in-kind creation and redemption mechanism.

The manner by which redemptions are made is dictated by the terms of the respective authorized participant agreement between an Authorized Participant and the Trust (“Authorized Participant Agreement”).

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and

- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
