Re: TrueShares - JULZ

MIAX PEARL, LLC (“Exchange”) commenced trading of equity securities on September 25, 2020 followed by a security-by-security phase-in period. This Product Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as a UTP Derivative Security pursuant to Exchange Rule 2900, and will begin trading on MIAX PEARL during the phase-in period. See the [Exchange’s Website](#) for the phase-in schedule.

TrueShares Structured Outcome (July) ETF	JULZ

Issuer/Trust: TrueShares

Issuer Website: <https://true-shares.com/>

Primary Listing Exchange: CBOE BZX Exchange

The purpose of this Product Circular is to outline various rules and policies that will be applicable to trading in this new product pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

The TrueShares Structured Outcome (July) ETF (the “Fund”) seeks to provide investors with returns (before fees and expenses) that track those of the S&P 500 Price Return Index (the “S&P 500 Price Index”) while seeking to provide a buffer against the first 8% to 12% of S&P 500 Price Index losses, over the period from July 1, 2020 to June 30, 2021.

The Fund is an actively-managed exchange-traded fund (“ETF”) that seeks to achieve its investment objective by investing substantially all of its assets in options that reference the S&P 500 Price Index. The Fund’s investment adviser, TrueMark Investments, LLC (“TrueMark”), and sub-adviser, SpiderRock

Advisors, LLC (“SpiderRock”), will employ a “buffer protect” options strategy that uses such options to seek to achieve exposure to the S&P 500 Price Index while mitigating the first 8% to 12% decline in the S&P 500 Price Index (the “Buffer”) over a 12-month period beginning on a specified day each July (each, a “Roll Date”). The period from one Roll Date to the next Roll Date is referred to as the “Investment Period,” and the first day of the Investment Period is referred to as the “Initial Investment Day”).

The Fund will purchase call options and sell (write) put options on the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index on each Initial Investment Day with an expiration on the next Roll Date. An option gives the purchaser of the option the right to purchase (for a call option) or sell (for a put option) the underlying asset (or deliver cash equal to the value of an underlying index) at a specified price (“strike price”). In the event the underlying asset declines in value, the value of a put option will generally increase (and the value of a call option will generally decrease and may end up worthless), and in the event the underlying asset appreciates in value, the value of a put option will generally decrease and may end up worthless (and the value of a call option will generally increase).

On each Initial Investment Day, the Fund will sell (write) put options on the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index with a strike price within a range of approximately 8% to 12% lower than the current value of the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index. As the seller of these options, the Fund receives a premium from the buyer of the options, which the Fund invests in at-the-money call options on the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index (i.e., call options having a strike price roughly equal to the current value of the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index). The relative price of the put options sold (written) by the Fund to the price of the call options purchased by the Fund will determine the Fund’s exposure to the S&P 500 Price Index during the Investment Period. Due to the cost of the options used by the Fund, the correlation of the Fund’s performance to that of the S&P 500 Price Index is expected to be less than if the Fund invested directly in the S&P 500 Price Index without using options, and could be substantially less. This means that if the S&P 500 Price Index experiences gains for an Investment Period, the Fund may not realize gains to the same extent.

The Fund’s strategy is to seek to protect investors from a decline of up to 8% to 12% in the performance of the S&P 500 Price Index from one Roll Date to the next Roll Date. When the Adviser or Sub-Adviser sells puts on the S&P 500 Price Index to create the buffer range, the proceeds are used to purchase calls at the money. However, not all puts generate the same premium relative to the downside exposure of the Fund. The Adviser will seek to deliver a buffer of 10% from the reference price of the S&P 500 Price Index on the first trading day of the month. However, the market could fluctuate on or after the buffer is set and this range allows for market condition volatility. The Fund is not designed to protect against declines of more than 8% to 12% in the level of the S&P 500 Price Index, and there can be no guarantee that the Fund will be successful in implementing the buffer protect options strategy to avoid the first 8% to 12% decline. Additionally, even if the Fund mitigates a decline in the performance of the S&P 500 Price Index from one Roll Date to the next Roll Date, the Fund’s returns during the Investment Period (prior to the next Roll Date) may not reflect the buffer protect options strategy.

The Fund will invest in standardized exchange-listed options or in exchange-traded FLEXible EXchange Options (“FLEX Options”), which are customized exchange-traded option contracts available through the Chicago Board Option Exchange (“Cboe”) that are guaranteed for settlement by The Options Clearing Corporation (“OCC”). FLEX Options provide investors with the ability to customize exercise prices, exercise styles, and expiration dates, while achieving price discovery in competitive, transparent, auction markets and avoiding the counterparty exposure of over-the-counter (“OTC”) options positions.

All FLEX Options in the Fund are European-style options (i.e., they can only be exercised at the expiration date of the option) based on the S&P 500 Price Index or an ETF that tracks the S&P 500 Price Index and have an expiration date that is the last day of the Investment Period. In general, the Fund intends to invest in FLEX options only, as these options provide the best combination of OCC guarantees, price discovery, customization, and European-style settlement that is ideal for the Fund. However in certain unforeseen circumstances, listed options may be used by the Fund to provide an additional source of desired market exposure. The Fund also expects to invest in U.S. Treasury bonds.

The Fund includes a mix of purchased and written (sold) put and call options structured to achieve the results described above. The Fund is designed to seek to achieve the results described above for investments made on the Initial Investment Day and held until the last day of the Investment Period. Investments made on any day other than the Initial Investment Day may differ significantly, positively or negatively, from the results described above.

The Fund's operations are intended to be continuous. It will not terminate and distribute its assets at the conclusion of each Investment Period. On each Roll Date, another Investment Period will commence and the Fund will invest in a new set of options.

The Fund is classified as "non-diversified" under the Investment Company Act of 1940, as amended (the "1940 Act").

Because Shares trade at market prices rather than NAV, Shares may trade at a price greater than NAV (premium) or less than NAV (discount). The Fund issues and redeems Shares at NAV only in large blocks known as "Creation Units," which only APs (typically, broker-dealers) may purchase or redeem. Creation Units of the Fund generally consist of at least 25,000 Shares, though this may change from time to time. The Fund generally issues and redeems Creation Units in exchange for a portfolio of securities closely approximating the holdings of the Fund (the "Deposit Securities") and/or a designated amount of cash.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on MIAX PEARL is subject to MIAX PEARL trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on MIAX PEARL between 9:30 a.m. and 4:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Name	Listing Market	Trading Symbol	IOPV Symbol	NAV Symbol

Delivery of a Prospectus

MIAX PEARL Equity Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund’s website. The prospectus for the Fund does not contain all of the information set forth in the Fund’s Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, MIAX PEARL Rules requires that MIAX PEARL Equity Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, MIAX PEARL Equity Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an MIAX PEARL Equity Member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: “A circular describing the terms and characteristics of [the UTP Exchange Traded Products] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Exchange Traded Products].”

A MIAX PEARL Equity Member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will

be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MIAX PEARL Equity Member under this rule.

Upon request of a customer, MIAX PEARL Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of MIAX PEARL Rule 2107 and other applicable suitability rules. Equity Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit

Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

This Product Circular is not a statutory prospectus. MIAX PEARL Equity Members should consult the prospectus for a security and the security's website for relevant information.
