Background Information on the Fund

The American Conservative Values ETF (the “Fund”) seeks to achieve long-term capital appreciation with capital preservation as a secondary objective. Fees and Expenses of the Fund

Under normal circumstances, the Fund seeks to meet its investment objective by investing at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities of U.S. companies that meet its politically conservative criteria (i.e., “conservative values”). The equity securities in which the Fund invest will generally be those of companies with large market capitalizations. Large capitalization companies are those companies with market capitalizations similar to companies in the

Russell 1000 Index or S&P 500 Index (the “Large Cap Indexes”). The size of the companies in the Large Cap Indexes changes with market conditions and the composition of the Indexes. Ridgeline Research LLC (the “Adviser”) generally defines large cap as greater than \$4.0 Billion. The Fund’s strategy reflects the Adviser’s conviction that politically active companies negatively impact their shareholders’ value by misallocating the company’s resources, as well as supporting issues and causes, which are opposed to conservative political beliefs and values. Representative examples of which are: individual liberty, limiting the size of government, free enterprise and belief in “American Exceptionalism.” The misallocation of resources is a strong indication that the company’s managers are not solely focused on maximizing shareholder value. As such the Adviser believes such companies constitute poor long-term investment opportunities when compared to companies which focus solely on shareholder value and are consequently avoided.

The Fund is actively managed and seeks to avoid ownership of companies which the Adviser determines with the use of negative screening disproportionately support liberal causes, charities, advocacy groups, campaigns, candidates, PACs and think tanks. Such support could be financial, as part of corporate governance, marketing, business strategy or public activism and advocacy continued by the company and or its senior management. Representative examples of a liberal causes include advocacy groups and campaigns that support Planned Parenthood, the Center for American Progress and the Courage to Change PAC. Given the qualitative and quantitative analysis required to determine a company’s alignment with conservative values, the Adviser has considerable discretion regarding the selection of securities which will achieve the Fund’s investment objective. Companies are continually evaluated by the Adviser for portfolio exclusion or inclusion based on financial reporting and data sources, such as, but not limited to: press releases, social media, advertising, lobbying efforts, data from Federal and State Election Commissions, market research, surveys, polling, as well as Fund Investor sourced research and opinion. Fund Investor sourced research and opinion is captured through a proprietary web-based advocacy platform that allows the Fund’s investors to nominate companies for portfolio exclusion or inclusion. Representative examples of these data sources are political contributions as reported by the Federal Election Commission (FEC), jointly signed letters by corporate executives of a political nature, retail investor polling of company favorably. Nominations will take place at least quarterly. These nominations are one of several data sources considered by the Adviser in the Fund’s security selection process. The Adviser is not bound by the results and the Adviser will not use “Fund Investor sourced research and opinion” for all investment decisions.

The Fund will generally hold the common stock of 400 to 600 companies with large market capitalizations. The Fund’s portfolio is expected to be broadly diversified with exposure to growth and value as well as to all economic sectors. The Fund seeks to manage active risk to capitalization-weighted benchmarks such as the Russell 1000 and S&P 500. The Fund relies on the investment discretion of its Adviser with respect to the selection and management of its portfolio of investments. The Fund may engage in active and frequent trading of portfolio securities. Companies screened out of the Fund’s portfolio for non-alignment with conservative values are disclosed daily on the Fund’s public website. The Fund’s investment objective is a non-fundamental policy and may be changed by the Board of Trustees without shareholder approval upon 60 days’ written notice to shareholders. The Fund is actively managed and does not seek to replicate an index.

The Fund will issue (or redeem) Shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least 25,000 Shares known as “Creation Units.” Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash. Individual Shares may only be purchased and sold on a national securities exchange

through a broker-dealer. You can purchase and sell individual Shares of the Fund throughout the trading day like any publicly traded security. The Fund's Shares are listed on the Exchange (i.e., NYSE Arca, Inc). The price of the Fund's Shares is based on market price, and because exchange-traded fund shares trade at market prices rather than NAV, Shares may trade at a price greater than NAV (premium) or less than NAV (discount). Except when aggregated in Creation Units, the Fund's Shares are not redeemable securities.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;

- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security.

In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
