Background Information on the Fund

In seeking to achieve the Fund’s investment objective, Newfleet Asset Management, LLC, the Fund’s sub-adviser (the “Sub-Adviser”), may invest the Fund’s assets in credit investments of any credit quality and maturity without limitation, and currently expects to invest the Fund’s assets primarily in the following types of credit investments:

- (i) U.S. and non-U.S. high yield corporate bonds (i.e., “junk bonds”), and (ii) floating rate bank loans rated below investment grade. High yield bonds are those that are rated “below investment grade,” which the Sub-Adviser defines as being rated lower than the four highest ratings categories of a

nationally recognized statistical rating organization or, if unrated, determined to be of comparable quality by the Sub-Adviser. The Sub-Adviser also currently expects to invest a portion of the Fund's assets in U.S. Treasury securities, and may invest up to 100% of the Fund's assets in U.S. Treasury securities when the portfolio managers determine that market conditions warrant a move away from junk bonds and/or floating rate bank loans.

Although loan investments are generally subject to certain restrictive covenants in favor of the investor, many of the loans in which the Fund will invest may be issued or offered as "covenant lite" loans, which have no financial maintenance covenants. "Financial maintenance covenants" are those that require a borrower to maintain certain financial metrics during the life of the loan, such as maintaining certain levels of cash flow or limiting leverage. These covenants are included to permit the lender to monitor the borrower's performance and declare an event of default if breached, allowing the lender to renegotiate the terms of the loan or take other actions intended to help mitigate losses. Although covenant lite loans contain no financial maintenance covenants, information necessary to monitor a borrower's financial performance may be available without covenants to lenders and the public alike, and can be used to detect such early warning signs as deterioration of a borrower's financial condition or results. When such information is available, the portfolio managers will seek to take appropriate actions without the help of covenants in the loans.

The Sub-Adviser applies a time-tested approach to credit research to seek to capitalize on opportunities across undervalued areas of the credit markets. The Sub-Adviser considers credit research an integral component of its high yield investment process, which emphasizes issue selection, bond sector selection and opportunistic trading. In this regard:

- The Sub-Adviser evaluates market conditions in the context of broad macroeconomic trends and will typically seek to cause the Fund to invest in those bond sectors that the Sub-Adviser believes provide exposure to well-valued companies whose business profiles (and credit measures) are expected to improve.
- The Sub-Adviser principally selects securities from a broad universe of domestic high yield corporate bonds using a bottom-up, fundamental research-driven process. The Sub-Adviser also selects floating rate bank loans for the Fund's portfolio. Although the Fund will primarily invest in the securities of U.S. issuers, the Fund may also invest in securities of foreign issuers, including those in emerging markets countries (i.e., those that are in the early stages of their economic development) or in countries experiencing economic uncertainty.

The Fund is an actively managed exchange-traded fund ("ETF") and, thus, does not seek to replicate the performance of a specified index of securities. Instead, it uses an active investment strategy that seeks to meet its investment objective.

Under normal market conditions, the Fund will invest not less than 80% of its net assets (plus the amount of any borrowings for investment purposes) in credit investments, and in derivatives and other instruments that have economic characteristics similar to such investments. Credit investments include corporate and sovereign bonds, including U.S.

Treasury securities; loans (including, without limitation, through loan participations and assignments); and securitized instruments (including, without limitation, mortgage-backed securities and other securities backed by pools of assets such as mortgages or other receivables). The Fund may also seek to

implement its investment strategy through (i) investments in U.S. listed ETFs that are substantially invested in any of the foregoing credit investments, and (ii) investments in futures contracts, including interest rate futures and U.S. treasury futures. In addition, from time to time the Fund may focus its investments (i.e., invest more than 15% of its total assets) in one or more particular sectors.

Unlike conventional investment companies, the Fund generally issues and redeems Shares on a continuous basis, at NAV, in blocks of 50,000 Shares or whole multiples thereof (“Creation Units”). The Fund’s Creation Units may be issued and redeemed only by certain large institutions, referred to as “Authorized Participants”, that enter into agreements with the Fund’s principal underwriter. Retail investors may acquire and sell Shares only on the Exchange through a broker-dealer. Shares of the Fund will trade on the Exchange at market price rather than NAV. As such, Shares may trade at a price greater than NAV (premium) or less than NAV (discount).

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the

Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase;
or

- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
