Background Information on the Fund

The Fund is an actively-managed exchange-traded fund (“ETF”) that seeks to achieve its investment objective by investing primarily in the equity securities of domestic and foreign companies that are expected to benefit, either directly or indirectly, from rising prices (inflation). The Fund’s investments in equity securities are generally expected to include common stock, ownership units of publicly traded master limited partnerships (“MLPs”), and units of royalty trusts. The Fund’s investment in equity interests of MLPs may include both general partnership interests and limited partnership interests of MLPs.

Horizon Kinetics Asset Management LLC is the Fund’s investment adviser (the “Adviser” or “Horizon Kinetics”). The Adviser seeks to identify companies that it believes are positioned to benefit from inflationary pressures, such as companies whose revenues are expected to increase with rising consumer, producer, raw material or assets prices without a corresponding increase in expenses. Such companies may include, for example, exploration and production companies, mining companies, transportation companies, infrastructure and real estate companies, with an emphasis on “asset light” businesses with royalty, streaming, rental, brokerage, management, and leasing exposure. “Asset light” refers to companies with relatively low working capital requirements and modest financial leverage that maintain exposure to inflation drivers. This may include companies with indirect exposure to inflation drivers, such as financial exchanges that facilitate transactions in commodity, interest rate and currency instruments, as well as data providers that specialize in data and analytics in industries that are sensitive to movements in interest rates and consumer prices. The Fund may invest in the securities of companies that earn revenue from precious metals or other commodities through active (*i.e.*, mining or production) or passive (*i.e.*, owning royalties or production streams) means. Royalties are the rights of a company to receive a percentage of the revenues generated from production of a commodity (*e.g.*, from mining precious metals). Production streams are arrangements in which a company provides an upfront payment in exchange for the right to purchase, typically at a fixed price determined in advance of production, all or a portion of certain metals or other commodities produced from a mine.

In selecting individual securities for the Fund’s portfolio, the Adviser employs a value-driven, “bottom-up” or fundamental approach. The Adviser’s research and analysis leverages insights from diverse sources, including internal research, to develop and refine its investment themes for the Fund and identify and take advantage of trends that have ramifications for individual companies or entire industries. The types of companies the Adviser believes are relevant to this theme are typically those that can increase revenues without a corresponding increase in expenses in an inflationary environment. Often such companies own, or directly or indirectly benefit from exposure to, underlying variables that are sensitive to inflationary pressures. The Adviser expects to sell portfolio holdings when it determines they no longer fit the Adviser’s investment thesis or are no longer attractively valued.

The Fund’s portfolio generally will include the securities of approximately 20 to 60 issuers that may range from small- to large-capitalization companies. Although the majority of the Fund’s portfolio securities are expected to be of issuers that are either domiciled in, or earn a majority of their revenues from activities within, the United States, the Fund also may have significant exposure to issuers that are either domiciled in, or earn a majority of their revenues from activities within, Australia, Canada, and Europe.

The Fund may also have significant exposure to securities exchange companies.

The Fund is non-diversified and therefore may invest a larger percentage of its assets in the securities of a single issuer or lesser number of issuers than diversified funds.

The Fund issues and redeems Shares at NAV only in large blocks known as "Creation Units," which only APs (typically, broker-dealers) may purchase or redeem. The Fund generally issues and redeems Creation Units in exchange for a portfolio of securities (the "Deposit Securities") and/or a designated amount of U.S. cash.

In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
