Re: Absolute Shares Trust WBI BullBear Global Income ETF - WBII

MIAX PEARL, LLC (“Exchange”) commenced trading of equity securities on September 25, 2020 followed by a security-by-security phase-in period. This Product Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as a UTP Derivative Security pursuant to Exchange Rule 2900, and will begin trading on MIAX PEARL during the phase-in period. See the [Exchange’s Website](#) for the phase-in schedule.

Absolute Shares Trust WBI BullBear Global Income ETF	WBII

Issuer/Trust: Absolute Shares Trust

Issuer Website: http://www.wbietfs.com/wp-content/uploads/2017/10/Summary_ProspectusWBII.pdf

Primary Listing Exchange: NYSE Arca

The purpose of this Product Circular is to outline various rules and policies that will be applicable to trading in this new product pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

Under normal market conditions, the Fund will invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in income-producing debt and equity securities of foreign and domestic issuers, including the securities of foreign and domestic corporate and government entities. These securities will be selected on the basis of the Sub-Advisor’s investment process, which includes a buy and sell discipline. The Fund’s buy discipline is driven by the Sub-Advisor’s proprietary selection process (“Selection Process”), as described further below. Cash and cash equivalents are some of the investment opportunities evaluated by the Selection Process. From time to time, the Fund may invest in and hold a significant percentage of its net assets in cash or cash equivalents as part of the normal

operation of its investment strategy.

Up to 20% of the Fund's net assets may be invested in foreign and domestic equities, exchange-traded funds ("ETFs"), exchange-traded notes ("ETNs"), and/or in option strategies to enhance the Fund's returns or to mitigate risk and volatility, and may be selected without regard to their ability to produce income. An ETN is an unsecured debt security that trades on an established exchange. Its underlying value is determined by reference to an index, commodity, interest rate, or other objectively determined reference. Equity option strategies used by the Fund for individual securities include writing (selling) covered calls, buying puts, and using combinations of calls and puts. The Fund may also use options on indices. The Fund may also invest in cash or cash equivalents as part of the normal operation of its investment process.

Although the Fund is limited as to the percentage of its net assets that may be directly invested in certain asset classes, the Fund may obtain investment exposure to such asset classes in excess of such limits by investing indirectly in such asset classes through other investment companies, including other ETFs with exposure to such asset classes. Consequently, investments in such pooled investment vehicles may result in aggregate direct and indirect investment exposure to an asset class in excess of the limit up to which the applicable Fund may invest directly in such assets.

The types of debt securities in which the Fund will generally invest include corporate debt securities, U.S. Government securities, debt securities of foreign issuers, sovereign debt securities, U.S. government agency securities, high-yield bonds (also known as "junk bonds"), mortgage-backed securities (including subprime mortgages), ETFs, ETNs, and variable and floating rate securities. The Fund expects to invest in debt securities of all maturities, from less than one year up to thirty years, depending on the portfolio manager's assessment of the risks and opportunities along the yield curve. (The yield curve refers to differences in yield among debt assets of varying maturities.) Debt securities will be selected on the basis of the SubAdvisor's assessment of the risks and opportunities available in the fixed income market using its proprietary Selection Process described briefly below.

The types of equity securities in which the Fund will generally invest include common stocks, preferred stocks, rights, warrants, convertibles, real estate investment trusts ("REITs") and master limited partnerships (businesses organized as partnerships which trade on public exchanges) ("MLPs"). The Fund may invest in companies of any size or market capitalization.

The Fund may invest without limitation in securities of foreign issuers, and up to 50% of its net assets in the securities of issuers located in emerging markets. The Fund may invest up to 40% of its net assets in high-yield bonds. The Fund may also invest in other investment companies, including other ETFs, up to the limits specified in the Investment Company Act of 1940 ("1940 Act") or in reliance on exemptions therefrom. Investments in other investment companies that invest predominantly in debt securities are considered debt securities and investments in other investment companies that invest predominantly in dividend-paying equity securities are considered dividend-paying equity securities for the purposes of the Fund's income-producing securities target allocation. The investment process used for the Fund attempts to provide consistent, attractive returns net of expenses with potentially less volatility and risk to capital than traditional approaches, whatever market conditions may be. This is the Fund's definition of an absolute return approach to investment management, and such an approach is used (in part) to achieve the Fund's investment objective.

The Fund uses a proprietary bond model created by the Sub-Advisor to assess the appropriate duration

and credit quality of any exposure to debt securities. Duration is a measure of a fixed income security's expected price sensitivity to changes in interest rates. Credit quality is a measure of a borrower's creditworthiness or risk of default. A portion of the Fund's bond exposure may also be invested to pursue perceived opportunities in varying segments of the global debt securities market.

The Sub-Advisor uses quantitative computer screening of fundamental stock information to evaluate domestic and foreign equity securities in an attempt to find companies with attractive yield characteristics for the selected universe of securities. Once securities are identified, an overlay of technical analysis confirms timeliness of security purchases. The Sub-Advisor then adds qualifying securities using available cash within the parameters of the Fund's target allocations. This systematic process of identifying, evaluating, and purchasing securities constitutes the Sub-Advisor's buy discipline for the Fund.

Once securities are purchased, the Sub-Advisor maintains a strict sell discipline that attempts to control the effects of the volatility of each Fund asset on the Fund's NAV. This sell discipline, together with the Selection Process, constitutes the Fund's strategy to achieve its investment objective. If a Fund asset's price stays within a range of acceptable prices, the Fund asset will continue to be held. If a Fund asset's price falls below the bottom of an acceptable price range, the Fund asset will be identified to sell. This results in a responsive process that actively adjusts the Fund's allocation by causing it to become more fully invested or by raising cash to protect capital. The sell discipline operates independently of, and in addition to, any investment model changes. During periods of high market volatility, a significant amount of Fund holdings may be sold, resulting in a significant allocation to cash or cash equivalents in the Fund.

The Fund is an actively managed ETF. The Sub-Advisor actively manages the Fund's portfolio. As a result, the portfolio turnover rate for the Fund may be high. The Sub-Advisor expects that the Fund's investment strategy will result in a portfolio turnover rate in excess of 100% on an annual basis.

For additional information about the Fund's principal investment strategies and the investment process, see "Description of the Principal Strategies of the Funds."

Unlike conventional mutual funds, the Fund issues and redeems Shares on a continuous basis at NAV only in Creation Units comprised of blocks of 50,000 Shares, or whole multiples thereof. Only a broker-dealer ("Authorized Participant") that enters into an appropriate agreement with the Fund's distributor may engage in such creation and redemption transactions directly with the Fund. The Fund's Creation Units generally are issued and redeemed "in-kind", for securities in the Fund, but may also be issued and redeemed in cash. Retail investors may acquire Shares on the NYSE Arca through a broker-dealer. Shares of the Fund will trade at market price rather than NAV. As such, Shares may trade at a price greater than NAV (premium) or less than NAV (discount).

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-

diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, sector risk and passive investment risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on MIAX PEARL is subject to MIAX PEARL trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on MIAX PEARL between 9:30 a.m. and 4:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Name	Listing Market	Trading Symbol	IOPV Symbol	NAV Symbol

Delivery of a Prospectus

MIAX PEARL Equity Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund’s website. The prospectus for the Fund does not contain all of the information set forth in the Fund’s Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, MIAX PEARL Rules requires that MIAX PEARL Equity Members

provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, MIAX PEARL Equity Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an MIAX PEARL Equity Member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Exchange Traded Products] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Exchange Traded Products]."

A MIAX PEARL Equity Member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MIAX PEARL Equity Member under this rule.

Upon request of a customer, MIAX PEARL Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of MIAX PEARL Rule 2107 and other applicable suitability rules. Equity Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security, which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

This Product Circular is not a statutory prospectus. MIAX PEARL Equity Members should consult the prospectus for a security and the security's website for relevant information.
