Background Information on the Fund

The Fund will, under normal circumstances, invest at least 80% of its assets (the “80% basket”) in component securities of the Underlying Index (“Component Securities”). The Fund may invest the remaining 20% of its assets (the “20% basket”) in securities not included in the Underlying Index, but which the Adviser believes will help the Fund track the Underlying Index. For example, the Fund may invest in securities that are not components of the Underlying Index to reflect various corporate actions (such as mergers) and other changes in the Underlying Index (such as reconstitutions, additions and deletions). The Fund may invest in securities of any type and of companies of any market capitalization, market sector or industry. The Fund may use the 20% basket to invest in securities issued by other investment

companies, including other exchange-traded funds. The Fund also may invest in warrants and may also use derivatives, primarily swaps (including equity, variance and volatility swaps), options and futures contracts on securities, interest rates, non-physical commodities and/or currencies, with the 20% basket to track the Underlying Index and as substitutes for direct investments the Fund can make. The Fund may also use derivatives such as swaps, options (including options on futures), futures, and foreign currency transactions (e.g., foreign currency swaps, futures and forwards) to hedge various investments for risk management and speculative purposes. In addition, the Fund's 20% basket may be invested in cash and cash equivalents, including shares of money market funds advised by the Adviser or its affiliates. Unlike many investment companies, the Fund does not try to "beat" the index it tracks. The Fund uses a passive management strategy designed to track the total return performance of the Underlying Index as a proxy for the senior secured loan universe. The Underlying Index is a subset of the Markit iBoxx USD Leveraged Loan Index. "Leveraged Loans" are loans to companies that typically already have a high amount of debt and are often characterized by lower credit ratings or higher interest rates. The Underlying Index is a rules-based index consisting of some of the largest, most liquid Leveraged Loans, as measured by the number of active market participants trading the security and the dollar face amount of outstanding senior loans issued. Currently, loans eligible for inclusion in the Underlying Index are measured by type, size, liquidity, spread, credit rating and minimum time to maturity. The Underlying Index is sponsored by Markit Indices Limited (the "Index Provider"), an organization that is independent of the Fund and the Adviser. The Index Provider determines the composition and relative weightings of the securities in the Underlying Index and publishes information regarding the market value of the Underlying Index. The Adviser uses a representative sampling indexing strategy to manage the Fund. "Representative sampling" is an indexing strategy that involves investing in a representative sample of securities that collectively has an investment profile similar to the Underlying Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as return variability, duration, maturity or credit ratings and yield) and liquidity measures similar to those of the Underlying Index. The Fund may, but is not required to, hold all of the securities in the Underlying Index. "Tracking error" is the difference between the performance (return) of the Fund's portfolio and that of the Underlying Index. The Adviser expects that, over time, the Fund's tracking error will not exceed 5%. Funds that employ a representative sampling strategy may incur tracking error risk to a greater extent than funds that seek to replicate an index. The Component Securities primarily consist of senior loans ("Senior Loans") to domestic or foreign corporations, partnerships and other entities that operate in a variety of industries and geographic regions, which may include emerging markets ("Borrowers"). The Fund will, under normal circumstances, invest at least 80% of its assets (i.e., net assets plus borrowings for investment purposes) in Senior Loans. Senior Loans, at the time of the Fund's purchase, have the most senior position in a Borrower's capital structure or share the senior position with other senior debt securities of the Borrower. Senior Loans generally are arranged through private negotiations between a Borrower and several financial institutions (the "Lenders") represented in each case by one or more such Lenders acting as agent (the "Agent") of the several Lenders. On behalf of the Lenders, the Agent is primarily responsible for negotiating the loan agreement ("Loan Agreement") that establishes the relative terms and conditions of the Senior Loan and rights of the Borrower and the Lenders. The Component Securities in which the Fund will invest are expected to be below investment grade securities (also known as "high yield securities" or "junk securities"). Such securities are rated below investment grade by a nationally recognized statistical rating organization ("NRSRO") or are unrated but deemed by the Adviser to be of comparable quality. The Underlying Index may include, and the Fund may acquire and retain in its portfolio, below investment grade or unrated securities, including loans of Borrowers that are insolvent or in default, provided that all criteria of the Underlying Index, including liquidity requirements, are met. The Fund may invest in participations ("Participations") in Senior Loans and may purchase assignments ("Assignments") of portions of Senior Loans from third parties. Senior

Loans often are secured by specific assets of the Borrower, although the Fund may invest without limitation in Senior Loans that are not secured by any collateral. The Fund is a non-diversified fund as defined in the Investment Company Act of 1940, as amended (the “1940 Act”), but intends to adhere to the diversification requirements applicable to regulated investment companies (“RICs”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). The Fund is not intended to be a complete investment program. Except for investment restrictions designated as fundamental in this Prospectus or in the Fund’s Statement of Additional Information (“SAI”), the investment policies described in this Prospectus or the Fund’s SAI are not fundamental and may be changed without shareholder approval. The Adviser expects that the Fund’s active or frequent trading of portfolio securities will result in a portfolio turnover rate in excess of 100% on an annual basis. As a result, the Fund may be more likely to realize capital gains, including short-term capital gains taxable as ordinary income, that must be distributed to shareholders as taxable income. High turnover may also cause the Fund to pay more brokerage commissions and to incur other transaction costs, which may detract from performance. The Fund’s portfolio turnover rate and the amount of brokerage commissions and transaction costs it incurs will vary over time based on market conditions. The Fund will, under normal circumstances, invest at least 80% of its assets (the “80% basket”) in component securities of the Underlying Index (“Component Securities”). The Fund is an exchange-traded fund. The Fund will issue and redeem shares only to authorized participants who have entered into agreements with the Fund's distributor ("Authorized Participants") in exchange for the deposit or delivery of a basket of assets (securities and/or cash) in large blocks, known as Creation Units, each of which comprises 100,000 shares. Retail investors may only purchase and sell shares on a national securities exchange through a brokerdealer. The price of Fund shares is based on market price, and because ETF shares trade at market prices rather than NAV, shares may trade at a price greater than NAV (a premium) or less than NAV (a discount).

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO- ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and

- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
