## **Background Information on the Fund**

Under normal circumstances, the Fund invests at least 80% of its Assets in equity securities and equity-related instruments that are tied economically to emerging markets. “Assets” means net assets, plus the amount of borrowings for investment purposes. Emerging markets include most countries in the world except Australia, Canada, Japan, New Zealand, the United Kingdom, the United States, most of the countries of Western Europe and Hong Kong, although the Fund may invest in securities tied to those countries as well.

The Fund’s investments represent allocations to a variety of the adviser’s actively managed emerging market equity strategies, including country, region and style strategies, among others. The adviser selects the strategies utilized in the portfolio based on risk/return analyses and relative value considerations.

The Fund will overweight or underweight countries and sectors relative to the MSCI Emerging Markets Index (net of foreign withholding taxes)<sup>1</sup> (the Benchmark). In implementing its strategy, the Fund seeks to construct a portfolio of holdings that will outperform the Benchmark over time while maintaining similar risk characteristics, including sector and geographic risks.

The equity securities and equity-related instruments in which the Fund may invest include, but are not limited to, common stock, participation notes or other structured notes, and other instruments that provide economic exposure to one or more equity securities.

The Fund may invest in securities across all market capitalizations, although the Fund may invest a significant portion of its assets in companies of any one particular market capitalization category.

Securities and equity-related instruments tied economically to an emerging market include: (i) securities of issuers that are organized under the laws of an emerging markets country or that maintain their principal place of business in an emerging markets country; (ii) securities that are traded principally in an emerging market country; (iii) securities of issuers that, during their most recent fiscal year, derived at least 50% of their revenues or profits from goods produced or sold, investments made, or services performed in an emerging markets country or that have at least 50% of their assets in an emerging market country; or (iv) securities or other instruments that expose the Fund to the economic fortunes and risks of one or more emerging market countries.

There is no limit on the number of countries in which the Fund may invest, and the Fund may focus its investments in a single country or a small group of countries. The Fund may use exchange-traded funds to gain exposure to particular foreign securities or markets and for the efficient management of cash flows. The Fund will have significant exposure to investments in the China Region, South Korea and India.

The Fund may invest in securities denominated in any currency and will invest substantially in securities denominated in foreign currencies.

Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, may also be used as substitutes for securities in which the Fund can invest. The Fund may utilize currency forwards (including nondeliverable forwards) to manage currency exposures, where practical, for the purpose of risk management, including hedging non-dollar currency exposure back to the U.S. dollar. The Fund may also use exchanged-traded futures for the efficient management of cash flows.

Investment Process: In managing the Fund, the adviser uses both a top down and bottom up research process as well as a combination of fundamental and quantitative inputs to allocate the Fund's assets among a range of sectors. In buying and selling investments for the Fund, the adviser looks for countries and individual securities that it believes will perform well over time. A proprietary multi-factor model is used to quantitatively rank countries, which informs the Fund's portfolio construction. The adviser selects individual securities after performing a risk/reward analysis to address the Fund's objective of providing a high total return. Research produced by the adviser includes in-depth, fundamental research into individual securities conducted by research analysts, who emphasize each issuer's long-term prospects, and disciplined top-down macro and quantitative research using the latest technology available to the firm. Research analysts use their local expertise to identify, research, and rank companies according to their expected performance. As a part of this analysis, research analysts seek to assess the risks presented by certain environmental, social and governance factors. While these particular risks are considered, securities of issuers presenting such risks may be purchased and retained by the Fund.

Individual Shares of the Fund may only be purchased and sold in secondary market transactions through brokers or financial intermediaries. Shares of the Fund are listed for trading on the Exchange, and because Shares trade at market prices rather than NAV, Shares of the Fund may trade at a price greater than NAV (premium) or less than NAV (discount). Certain affiliates of the Fund and the adviser may purchase and resell Shares pursuant to this prospectus.

An investor may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase Shares of the Fund (bid) and the lowest price a seller is willing to accept for Shares (ask) when buying or selling Shares in the secondary market (the "bid-ask spread").

Recent information, including information about the Fund's NAV, market price, premiums and discounts, and bid-ask spreads (when available), is included on the Fund's website at [www.jpmorganfunds.com](http://www.jpmorganfunds.com).

A MIAX PEARL Equity Member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to MIAX PEARL Equity Member under this rule.

Upon request of a customer, MIAX PEARL Members also shall provide a copy of the Prospectus.

### **Suitability**

### **Trading Halts**

MIAX PEARL will halt trading in the Shares of a security in accordance with MIAX PEARL Rules. The grounds for a halt under MIAX PEARL Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **Rule 10b-17 (Untimely Announcement of Record Dates)**

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

### **Section 11(d)(1); Rule 11d1-2 (Customer Margin)**

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

**SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)**

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
