## **Background Information on the Fund**

The Revere Sector Opportunity ETF (the “Fund”) seeks capital appreciation.

The Fund is an actively managed exchange traded fund (“ETF”) that will primarily invest in ETFs that represent a sector of the S&P 500 Index (“Sector ETFs”). The adviser delegates execution of the Fund’s strategy to the sub-adviser. The sub-adviser invests the Fund’s assets based on a proprietary sector selection model. The sub-adviser’s model recommends allocations for the Fund’s assets among Sector ETFs that each focus on common stocks of companies included in an individual sectors of the S&P 500® Index, as determined by the Global Industry Classification Standard (GICS®). The sub-adviser defines a Sector ETF as an ETF that invests its holdings in companies that are selected on the basis of general industry classification from a universe of companies defined by the Standard & Poor’s 500 Composite Stock® Index. The S&P 500 Index is composed of the following eleven sectors: Information Technology, Health Care, Financials, Consumer Discretionary, Communication Services, Industrials, Consumer Staples, Energy, Utilities, Real Estate, and Materials. Under normal market conditions, the sub-adviser will invest the Fund’s assets in all eleven sectors that comprise the S&P 500 Index.

The Fund’s assets are allocated among ETFs based on the sub-adviser’s proprietary sector selection model. The model incorporates macroeconomic, financial and market data to determine how to allocate the Fund’s asset among the individual sectors of the S&P 500 Index. The sub-adviser’s model determines whether each sector is “underweight”, “overweight” or “index weight” and allocates the Fund’s accordingly. The terms “overweight (greater allocation)”, “underweight (lesser allocation)”, and “index weight (equal allocation)” reflect the sub-adviser’s allocation of the Fund’s portfolio when compared to the S&P 500 Index. If the sub-adviser’s models determine that a sector is “overweight”, the sub-adviser will allocate a higher portion of the Fund’s portfolio to the sector when compared to the sector weighting in the S&P 500 Index. If the sub-adviser’s models determine that a sector is “underweight”, the sub-adviser will allocate a smaller portion of the Fund’s portfolio to the sector when compared to the current sector weighting in the S&P 500 Index. When the sub-adviser’s models determine that a sector is “index weight”, the sub-adviser will invest the Fund’s portfolio to approximately mirror the sectors weighing when compared to the S&P 500 Index. The sub-adviser determines whether a sector is underweight, overweight, or indexweight based on daily weekly, and monthly evaluation as well as review of technical factors. The portfolio’s final sector allocation is subject to the sub-adviser’s risk and diversification constraints, which may limit the amount a sector may represent in the portfolio. The sub-adviser’s diversification constraints require the Fund to invest in at least five of the eleven sectors that comprise the S&P 500 Index at all times. The sub-adviser may not fully implement the results of the model if it believes the model does not take into account all relevant data, or that a different evaluation or weighting of the data is more appropriate. It is possible the Fund may not have exposure to all sectors at all times. In managing the Fund’s portfolio, the subadviser will actively manage the Fund, resulting in a high portfolio turnover rate. The sub-adviser may adjust holdings based on changes in the S&P 500 economic sector weightings.

The Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares and is recognized as the owner of all Shares for all purposes.

The NAV of the Fund is generally determined as of the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange is open for business. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent.

**Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. ### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and

- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **Rule 10b-17 (Untimely Announcement of Record Dates)**

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

### **Section 11(d)(1); Rule 11d1-2 (Customer Margin)**

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

### **SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)**

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
