Background Information on the Fund

The Fund is an actively managed exchange-traded fund (“ETF”) that seeks to achieve its investment objective by investing in a combination of financial instruments that are economically linked to commodities drawn from the agriculture sector.

Under normal circumstances, the Fund invests, either directly or through a wholly-owned subsidiary (the “Subsidiary”), in a combination of three categories of investments:

- Commodities Futures – exchange-traded futures contracts on underlying commodities.
- Commodity-Linked Instruments – other instruments whose value is derived from or linked to price movements of underlying physical commodities, represented by exchange-traded futures contracts on commodity indices, commodity-linked notes, exchange-traded options on Commodities Futures, swaps on commodities and commodity-related forward contracts.
- Collateral – cash, cash-like instruments or high-quality securities. The Collateral may consist of (1) U.S. Government securities, such as bills, notes and bonds issued by the U.S. Treasury; (2) money market funds; and/or (3) corporate debt securities, such as commercial paper and other short-term unsecured promissory notes issued by businesses that are rated investment grade or determined by the Adviser to be of comparable quality. Such Collateral is designed to provide liquidity, serve as margin or otherwise collateralize investments in the Commodities Futures and Commodity-Linked Instruments.

The Fund will not invest directly in physical commodities, Commodities Futures or Commodity-Linked Instruments. Instead, the Fund attempts to obtain investment returns that are highly correlated to the agriculture commodities markets by investing in these instruments indirectly through its Subsidiary. The Fund’s investment in the Subsidiary is expected to provide the Fund with exposure to Commodities Futures and Commodity-Linked Instruments in accordance with the limits of the federal tax laws, which limit the ability of investment companies like the Fund to invest directly in such investments. The Fund’s investment in the Subsidiary may not exceed 25% of the Fund’s total assets at each quarter-end of the Fund’s fiscal year. The Subsidiary operates under Cayman Islands law. It is wholly-owned and controlled by the Fund and advised by the Adviser. The Subsidiary has the same investment objective as the Fund and will follow the same general investment policies and restrictions, except that unlike the Fund, it may invest without limitation in Commodities Futures and Commodity-Linked Instruments. Except as noted, for purposes of this Prospectus, references to the Fund’s investment strategies and risks include those of its Subsidiary.

The Subsidiary will invest in Commodities Futures (or gain exposure to Commodities Futures through the use of swaps) that generally are representative of the components of the DBIQ Diversified Agriculture Index Excess Return (the “Benchmark”), an index composed of futures contracts on 11 commodities drawn from the agriculture sector: Corn, Soybeans, Wheat, Kansas City Wheat, Sugar, Cocoa, Coffee, Cotton, Live Cattle, Feeder Cattle, and Lean Hogs. Although the Subsidiary generally provides exposure to the components of the Benchmark, the Fund is not an “index tracking” ETF and instead seeks to exceed the performance of the Benchmark. Therefore, the Subsidiary may not seek exposure to all of the Benchmark’s components or in the same proportion as the Benchmark. The Subsidiary may invest in Commodities Futures (or gain exposure to such Commodities Futures through the use of swaps) that are not included in the Benchmark, but reference a commodity represented in the Benchmark by a different futures contract. At times, the Subsidiary also may invest in agriculture Commodities Futures outside the Benchmark, invest in Commodities Futures with expirations beyond those contained in the Benchmark or emphasize some agriculture commodities more than others.

The Subsidiary also invests a portion of its assets in Commodity-Linked Instruments to seek to increase its investment returns or hedge against declines in the value of its other investments. Although the Fund does not seek leveraged returns, investing in Commodity-Linked Instruments may have a leveraging effect on the Fund. The Commodity-Linked Instruments may be exchange-traded or traded over-the-counter (“OTC”).

Because the Fund intends to qualify as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (“Code”), the Fund’s investments in the Subsidiary and Commodities Futures are limited by certain requirements of the Code and related Internal Revenue Service regulations. Accordingly, the Fund (and the Subsidiary, as applicable) invests its remaining assets directly in Collateral, which consists of high-quality securities such as U.S. Treasuries, other U.S. Government obligations, money market funds, cash and cash-like equivalents (e.g., high quality commercial paper and similar instruments that are rated investment grade or, if unrated, of comparable quality as the Adviser may determine) that provide liquidity, serve as margin or collateralize the Subsidiary’s investments in Commodities Futures and Commodity-Linked Instruments.

The phrase “No K-1” in the Fund’s name means that the Fund does not issue a Schedule K-1, which is the tax reporting form issued by commodities partnerships. Schedule K-1 typically presents additional complexities. Instead, like most other ETFs, the Fund reports income on Form 1099.

The Fund is “non-diversified” and therefore is not required to meet certain diversification requirements under the Investment Company Act of 1940, as amended (“1940 Act”).

Concentration Policy. The Fund will concentrate its investments (i.e., invest more than 25% of the value of its net assets) in investments that provide exposure to agriculture commodities and/or agriculture commodities futures contracts.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, and passive investment risk.

In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria. AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
