Background Information on the Fund

The principal investment strategies for the Fund is described in the Fund Summary for the Fund. In seeking to achieve the investment objective for the Fund, Matthews also employs the investment approach and other principal investment strategies as described below.

Matthews invests primarily in the Asia Pacific region (as defined on page 8) for those Funds and other advisory clients with such an investment focus based on its assessment of the future development and growth prospects of companies located in the markets of that region. In addition to the Asia Pacific focus for those Funds and clients, Matthews also invests broadly in emerging countries and markets outside the Asia Pacific region on behalf of certain Funds, including the Matthews Emerging Markets ex China Active ETF. Matthews believes that the countries in these markets are on paths toward economic development and, in general, deregulation and greater openness to market forces. Matthews believes in the potential for these economies, and that the intersection of development and deregulation will give rise to new opportunities for further growth. Matthews attempts to capitalize on its beliefs by investing in companies it considers to be well-positioned to participate in the economic evolution of these markets. Matthews uses a range of approaches to participate in the anticipated growth of Asian and other foreign markets to suit clients' differing needs and investment objectives.

Matthews believes that the Matthews Emerging Markets ex China Active ETF may provide investors with additional flexibility to express an investment view on China within emerging markets and within their overall investment portfolio, including aiming to reduce or eliminate China exposure or specific single country risk(s) or increase exposure to other countries within emerging markets.

Matthews researches the fundamental characteristics of individual companies to help to understand the foundation of a company's long-term growth, and to assess whether it is generally consistent with Matthews' expectations for the economic evolution of the countries and markets in which the Fund invests. Matthews evaluates potential portfolio holdings on the basis of their individual merits, and invests in those companies that it believes are positioned to help the Fund achieve its investment objective.

Matthews has long-term investment goals, and its process aims to identify potential portfolio investments that can be held over an indefinite time horizon. Matthews regularly tests its beliefs and adjusts portfolio holdings in light of prevailing market conditions and other factors, including, among other things, economic, political or market events (e.g., changes in credit conditions or military action), changes in relative valuation (of a company's growth prospects relative to other issuers), liquidity requirements and corporate governance.

The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day.

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
