Background Information on the Fund

Palmer Square Capital Management LLC (the “Advisor”), a Delaware limited liability company formed in 2009 which maintains its principal offices at 1900 Shawnee Mission Parkway, Suite 315, Mission Woods, KS 66205, acts as the investment advisor to the Fund pursuant to the Investment Advisory Agreement with Palmer Square Funds Trust (the “Trust”) on behalf of each Fund. The Advisor is an investment advisor registered with the SEC and provides investment advice to open-end funds, private investment funds, and institutional and high net worth clients. The Advisor has approximately \$29.5 billion in assets under management as of December 31, 2023.

Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in debt securities (the “80% Policy”). The Fund may invest in domestic and foreign debt securities of any maturity and credit quality, including securities rated below investment grade and unrated securities determined by the Fund’s investment advisor to be of comparable credit quality (commonly referred to as “high yield securities” or “junk bonds”). The types of debt securities in which the Fund may invest include, but are not limited to, (i) collateralized debt obligations (“CDOs”), collateralized loan obligations (“CLOs”) and other similar types of asset-backed and mortgage-backed securities of various tranches or classes, (ii) corporate bonds, notes and debentures, (iii) securities issued or guaranteed by the U.S. government, its agencies, instrumentalities or sponsored entities, (iv) senior secured floating rate and fixed rate loans or debt, and (v) second lien or other subordinated or unsecured floating rate and fixed rate loans or debt. The Fund may invest a significant portion of its assets in one or more investment types. Some of the loans in which the Fund may invest or get exposure to through its investments in CDOs, CLOs or other types of structured securities may be “covenant lite” loans. The Fund may invest in both U.S. dollar denominated and non-U.S. dollar denominated loans and securities, as well as securities of foreign issuers.

Asset-backed securities are pass-through certificates and other instruments secured by financial, physical and/or intangible assets. Such assets may include loans or leases secured by motor vehicles or other equipment, consumer receivables from sources such as credit cards or student loans, or cash flows from operating assets such as royalties and leases. Mortgage-backed securities in which the Fund may invest include those issued or guaranteed by federal agencies and/or U.S. Government sponsored instrumentalities, such as the Government National Mortgage Administration (“Ginnie Mae”), the Federal Housing Administration (“FHA”), the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”). The Fund may also invest in commercial mortgage-backed securities (“CMBS”) and collateralized mortgage-backed securities (“CMOs”) issued or guaranteed by private entities.

For the purposes of achieving the Fund’s investment objectives, hedging risks, and enhancing liquidity, the Fund may also employ derivatives, such as: puts and calls on U.S. Treasury futures; options, swaps, and other interest rate derivatives; and credit default swaps on selected entities or indexes (where the Fund may act as either buyer or seller). The Fund’s investments in derivatives and other synthetic instruments that have economic characteristics similar to debt securities in which the Fund may invest directly will be treated as debt securities for purposes of the 80% policy.

The Fund is actively managed and does not seek to replicate the composition or performance of any index. Accordingly, portfolio management has discretion to manage the Fund’s portfolio in accordance with the Fund’s investment objectives. In pursuing the Fund’s investment objectives, (the Advisor) uses a blend of top-down analysis which includes macro analysis e.g., market, economic and geopolitical factors, relative value analysis across different asset classes, and monitoring of industry and sector trends, and bottom-up analysis which involves individual issuer and management analysis and security/transaction evaluation that seeks to identify debt securities that it believes can provide highly competitive rate yields and total return over the long term with relatively mitigated credit risk. The Advisor seeks to mitigate risk through bottom-up analysis of credit risk, diversification and hedging.

The Fund’s investment strategy may involve active and frequent trading of portfolio securities.

The Fund is non-diversified, which means it may invest a greater portion of its assets in fewer issuers than would otherwise be the case.

The Fund issues and redeems Shares at NAV only in large blocks known as “Creation Units,” which only APs (typically, broker-dealers) may purchase or redeem. The Fund generally issues and redeems Creation Units in exchange for a portfolio of securities (the “Deposit Securities”) and/or a designated amount of U.S. cash. The Fund currently expects to issue Creation and Redemption Units primarily for cash because of the types of assets in which it invests.

Shares are held in book-entry form, which means that no stock certificates are issued. Depository Trust Company (“DTC”) or its nominee is the record owner of all outstanding Shares.

The NAV per Share is computed for each Fund by dividing (a) the value of the Fund’s securities, cash and other assets less the amount of the Fund’s expenses and liabilities by (b) the number of shares outstanding. The NAV per Share takes into account all of the expenses and fees of the Fund, which are accrued daily.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, and passive investment risk.

In addition, MIAX PEARL will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria. AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day.

This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
