Background Information on the Funds

Invesco Actively Managed Exchange-Traded Fund Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. The shares of the Fund are referred to herein as “Shares”.

The Invesco Managed Futures Strategy ETF (the “Fund”) seeks long term capital appreciation.

The Fund is an actively managed exchange-traded fund (“ETF”) that seeks to achieve its investment

objective by taking both long and short positions in derivative contracts linked to over fifty global markets, including stock indices, bond indices, commodity indices and currencies. The derivative contracts in which the Fund may invest include futures contracts, foreign currency forward contracts and swaps. When the Fund holds a “long” position in a derivative contract, it will generally benefit from an increase in the value of the reference asset or index underlying such derivative. Conversely, when the Fund holds a “short” position, the Fund will generally benefit from a decrease in the value of such reference asset or index.

To support its portfolio of derivative investments, maintain liquidity, or earn income, the Fund may hold significant amounts of U.S. Treasury securities, short-term investments, cash, cash equivalents, and high-quality money market funds.

In executing the Fund’s managed futures strategy, Invesco Advisers, Inc. (the “Sub-Adviser”) employs a systematic investment process that is designed to capitalize on price trends (both up and down) and historic relationships across global markets and asset classes. The Sub-Adviser’s investment philosophy is based on the belief that financial markets may exhibit persistent trends, whereby past price movements may be indicative of future prices, and that active trading may be utilized to capture upside from these trends.

In this regard, the Sub-Adviser evaluates each market (approximately 50) represented in the Fund’s portfolio on periodic basis to determine the direction (up or down) and strength of the price trend in that market. The Sub-Adviser then adjusts the direction (long or short) and magnitude of the Fund’s position in each market based on these trends (i.e., the Fund will generally hold larger positions in markets with stronger price trends). The Sub-Adviser does not intend to manage the portfolio within a specified long/short range in the aggregate; however, the Sub-Adviser will seek to limit the Fund’s exposure to any single market in order to diversify the source of the Fund’s returns. In accordance with this investment process, the Sub-Adviser may rebalance the Fund’s portfolio on a frequent basis to reflect changing risks and trends, potentially resulting in relatively high portfolio turnover.

In managing the Fund, the Sub-Adviser seeks to provide a stable level of volatility (defined as the annualized standard deviation of returns) in the Fund’s portfolio regardless of market conditions. To accomplish this, the Sub-Adviser measures the volatility of the underlying reference assets for the futures contracts in which the Fund invests and then scales the Fund’s exposure to each market accordingly.

In order to gain exposure to commodity markets, the Fund may invest up to 25% of its total assets in a wholly owned subsidiary organized under Cayman Islands law (the “Subsidiary”). The Fund’s investment in the Subsidiary is expected to provide the Fund with exposure to commodity-linked derivatives in accordance with the limits of the federal tax laws, which limit the ability of the Fund to invest directly in such instruments. The Subsidiary will follow the same general investment policies and restrictions as the Fund, except that the Subsidiary may invest without limit in commodity-linked derivatives. The Subsidiary’s investments also will be subject to limits on leverage and the use of derivatives imposed by the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund is “non-diversified” and therefore is not required to meet certain diversification requirements under the 1940 Act.

The Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of 20,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust

Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading a bove or below net asset value), investment style risk, sector risk, investment approach risk, non - diversification risk, issuer-specific risk, management risk, concentration risk, equity securities risk, and passive investment risk.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund’s securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
